

# Broadband IT

A top priority for Government facilities is to increase the deployment of broadband infrastructure and encourage sustainable implementation of broadband service. The ARRA provides for enhanced development of our country's broadband infrastructure with programs such as NTIA's BTOP, and the Broadband Mapping Program. These programs are an excellent opportunity for our country to invest in state of the art broadband infrastructure. CSC, a subsidiary of WESCO, can assist with your data communications and infrastructure needs while reducing overall installation costs through our support services.

## What we can do for you

### Structured Cabling

Cabling is a major component of your broadband infrastructure. In order to ensure your data is being transmitted effectively regardless of your signal rate you need to be sure your fiber optic cabling meets the necessary requirements. CSC can provide:

- Fiber Optic Cable Assemblies
- Pre-Terminated Fiber Solutions (Plug-N-Play)
- Fiber Cable and Connectivity
- Fiber Tools, Splicers and Equipment

### Power Over Ethernet (PoE)

Broadband modems have a high data rate, Ethernet provided over a cable modem is a common alternative to DSL. Ethernet is the common interface to broadband modems. CSC can provide:

- In-Line Hubs
- Injectors
- Powered Patch Panels

### Support Services

CSC Value-Added Services help customers by identifying and deploying solutions that reduce costs, increase productivity, and streamline processes.

- At-the-Desk Services-CSC sales experience spans a broad range of applications. Save time and let CSC support your day to day requirements.
