

# Hospital Facilities

From the renovation of out-dated hospital facilities to meeting mandated sustainability goals, WESCO offers a range of products and solutions to help you get started. Our goal is to help keep your facility operating at optimum levels while reducing your overall expenses by delivering the right products coupled with our extensive value creation services.

## What we can do for you

### Electrical Safety Solutions

Unexpected loss of electrical power or system failure in your hospital facility can result in serious consequences. Upgrading your electrical system will help protect the personnel and patients at your facility.

- Uninterruptable Power Supply (UPS)
- Quick Connect Generator Hook Ups
- Integrated Facility System (IFS) Switchboards

### Sustainability Solutions

Energy costs may represent 40-60 percent of your facility's operating budget. Our portfolio of sustainable solutions will help you retrofit or upgrade your facility to achieve your energy efficiency goals and reduce operating expenses.

- Lighting Design
- Lighting Retrofit
- Energy/Power Meters and Monitoring Software

### Communication and Security Solutions (CSC)

Having the proper communication and security solutions at your facility will increase efficiency, safety, and overall patient and employee satisfaction.

- Network infrastructure-high bandwidth copper or fiber cabling
- Reliable voice and paging systems
- Secure mobility solutions
- Physical security solutions

### Maintenance, Repair and Operations (MRO)

Hospital power system reliability is not about one or even two pieces of equipment. It is about a comprehensive plan from the design to the implementation of a maintenance program. We make maintaining your facility easy with access to a wide range of MRO products.

- Tools, Power and Hand
